

SCHEDULE FOUR

BY THE NUMBERS

AREAS

NZ LAND AREA:

26,802,100 hectares (ha)

8,593,371 ha of public conservation land

SCHEDULE 4 AREA:

4,667,588 ha (including marine areas)

3,418,635 ha (only including land areas)

Schedule 4 LAND represents 12.75% of New Zealand's total land area or 40% of public conservation land.

AREAS ONLY ADDED TO SCHEDULE 4 IN 2008

1,266,854 ha gross in total (745,141 ha gross of land, including Kahurangi National Park, and 521,713 ha of marine reserves). [NB parts of those gross areas were already in Schedule 4 by virtue of their status as wilderness area (the Tasman Wilderness Area in Kahurangi National Park) or nature reserve (Rakiura National Park).]

AREAS NOW PROPOSED FOR REMOVAL:

7,058 ha (=71km²)

0.2% of current Schedule 4 lands

0.026% of NZ's total land area

- the 705 ha Te Ahumata Plateau (2.6% of Great Barrier Island or 4.6% of public conservation land on the island)
- 7 areas totalling 2,574 ha on the Coromandel Peninsula (1.5% of total land area or 3.7% of public conservation land on the peninsula)
- the 396 ha Otahu Ecological Area and 68 ha Parakawai Geological Area to the south of the Coromandel Peninsula
- the 3,315 ha Inangahua sector of Paparoa National Park (8.5% of the park, not contiguous with the main body of the park and parts are currently mined/ permitted)

AREAS PROPOSED FOR ADDITION:

14 areas totalling 12,400 ha (=124km²)

VALUES

VALUE OF NZ'S ON-SHORE MINERALS EXCLUDING HYDROCARBONS:

[Source: MED based on Richard Barker report of 2008 and later GNS reports on Northland and Rakiura.]

\$194 billion overall

\$80 billion or 40% estimated to be in Schedule 4 land

VALUE OF MINERAL RESOURCES IN THE WIDER COROMANDEL REGION:

[Source MED based on GNS 2008]

\$54 billion [NB not all in Schedule 4 land]

\$18 billion estimated in areas proposed for removal

\$17 billion extracted to date [not included in \$54 billion]

Current production of \$225 million per annum

VALUE OF MINERAL RESOURCES IN PAPARO A NATIONAL PARK:

at least \$1-2 billion in coal in the Inangahua sector, unknown in other minerals and the remainder of the park

VALUE OF MINERAL RESOURCES IN RAKIURA NATIONAL PARK:

[Source GNS 2009]

\$7 billion (\$5.4 billion in rare earth elements)

VALUE OF MINERAL RESOURCES IN NORTHLAND:

[Source GNS 2010]

\$47 billion
